The Annual Staff Presents

THE 1966 "PIRATE"

Grand Rapids Local Schools

Grand Rapids, Ohio

To Mrs. Frazier,

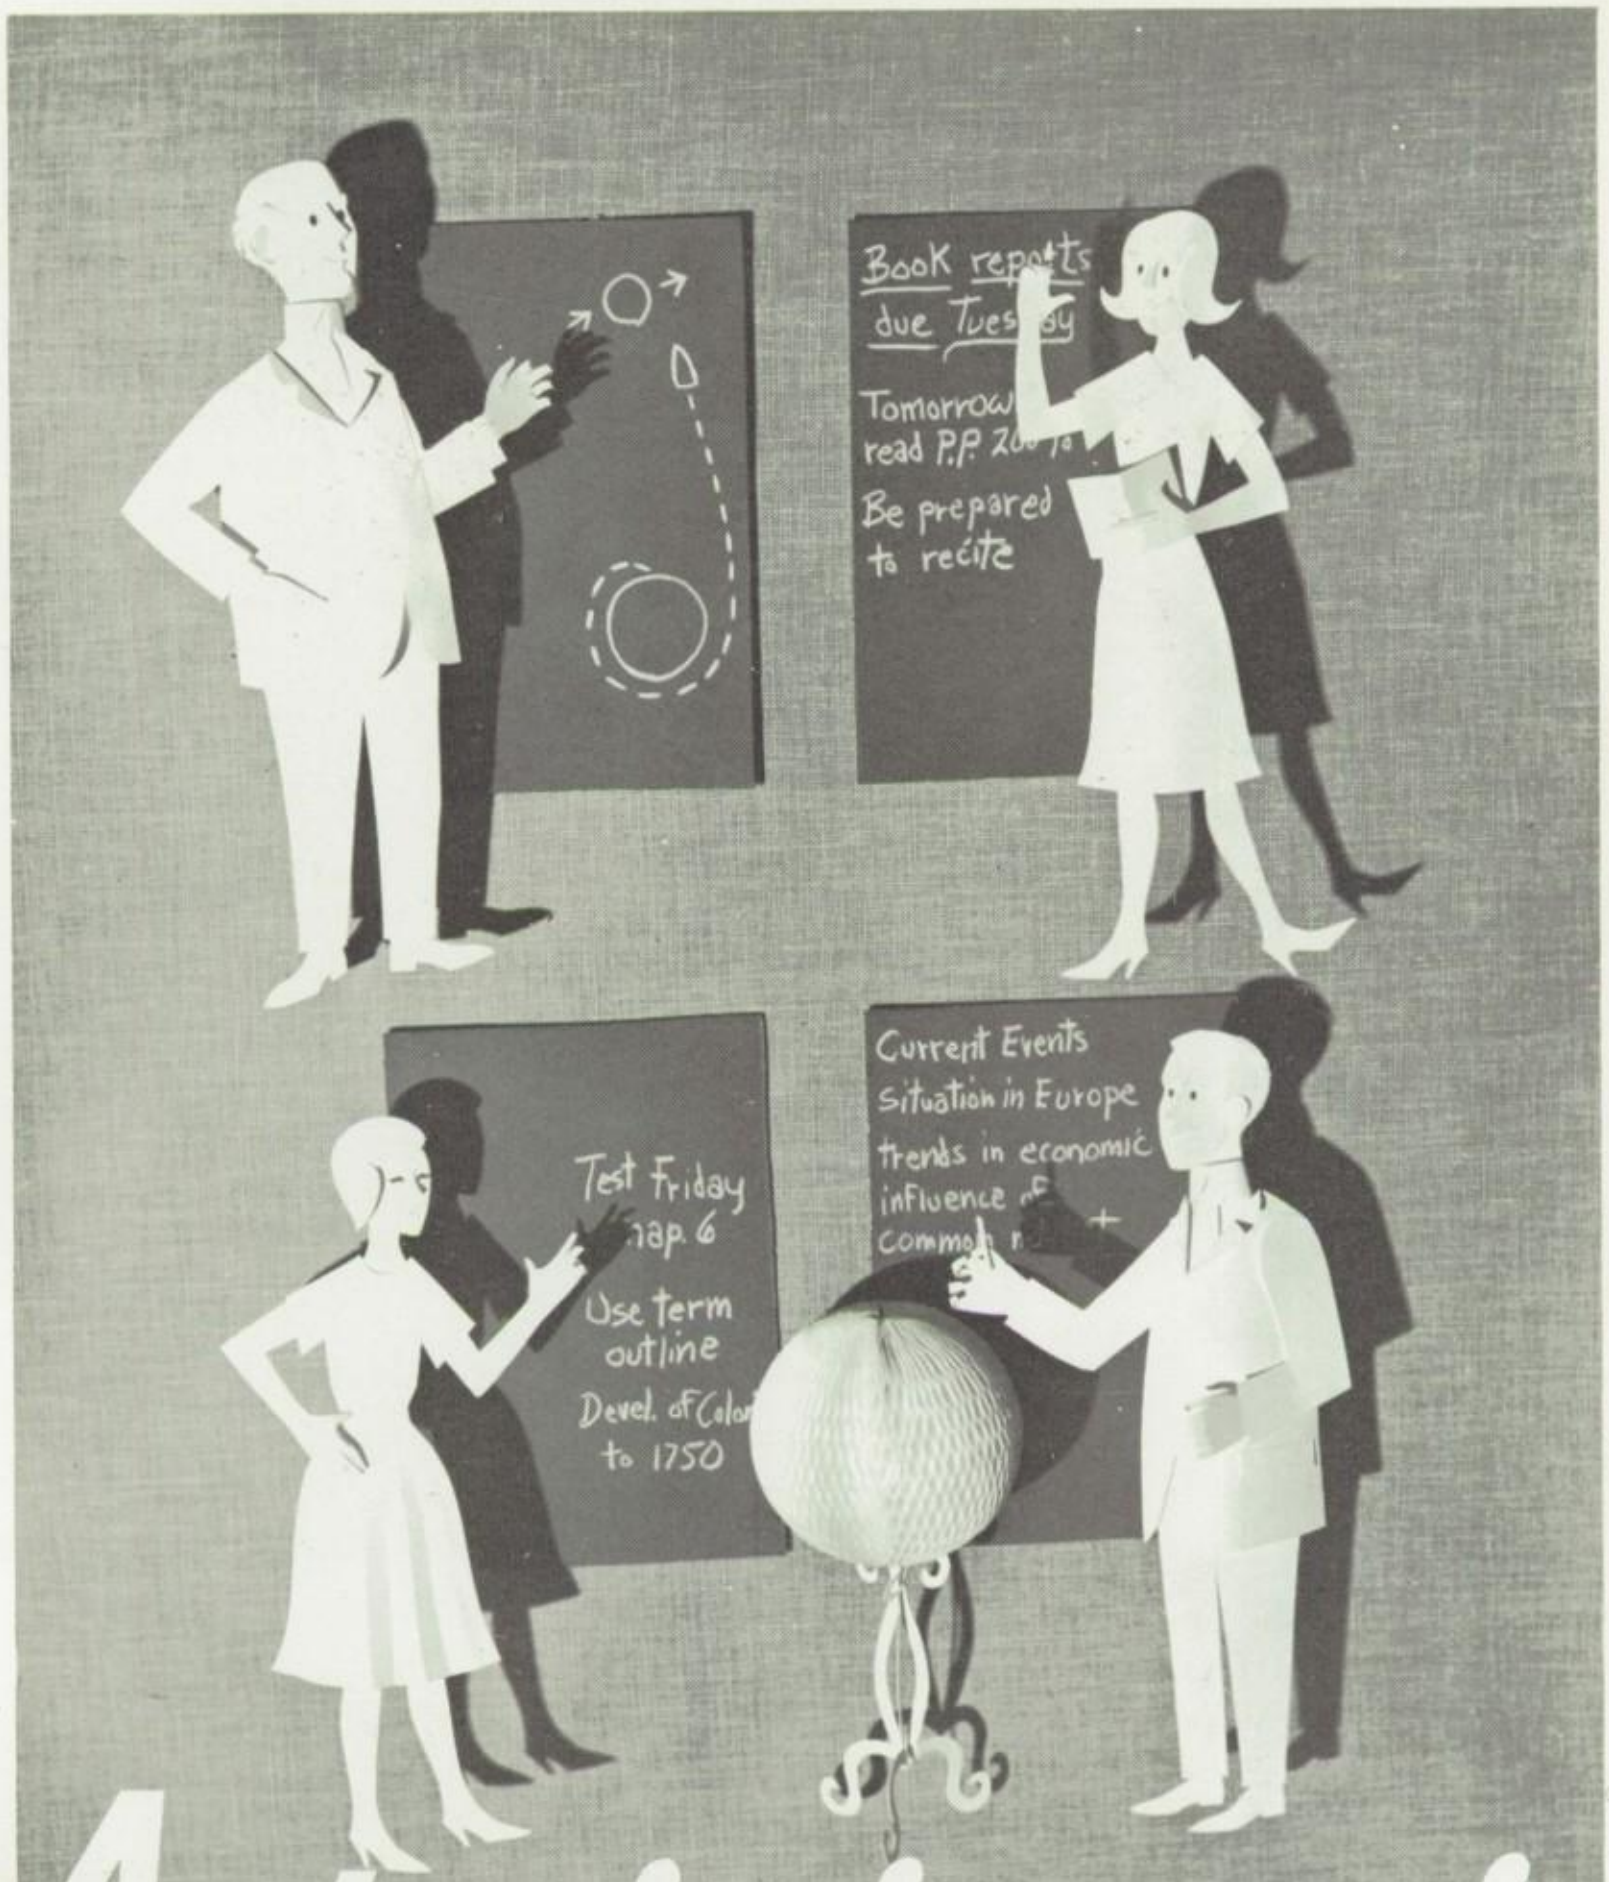
As we began our journey down the long road of knowledge, you were our first guiding post and inspiration. With unending patience and vigilance you steered our young minds toward this final goal.

You were the one who wiped our runny noses and calmed our fears. You were the one that settled the squabbles and quarrels between us. You were the one to whom we turned when we couldn't keep our shoes tied or our coats buttoned.

Many times you were perturbed because of our childish pranks, but you taught us that school was a fun place as well as a place of learning.

To you, our kindergarten teacher, the Seniors of 1966 dedicate the Pirate with deep felt appreciation and gratitude.

The Class of 1966



Administration

To The Class of 1966 -

To you who have succeeded in completing the requirements of the local school system and the State of Ohio, I offer my heartfelt congratulations. You have fulfilled a goal; you have completed a job; you have mastered an obstacle. You should be very proud because you have not only successfully closed one period in your life, but, most important, you have opened up another.

Adulthood lies ahead. It, too, has many challenges and obstacles to overcome before you can truly call yourself a man, woman or a citizen. You can do it - you have before, and I see no reason for not succeeding in your quest.

I can only add that you have been a most cooperative group. It certainly has been a pleasure working with you. Your academic growth has been in direct proportion to your efforts. If some have achieved more, it is because they have worked harder. You who did not achieve, lacked effort above all else.

I hope that as you leave your high school experiences behind you, you will do so with love for your alma mater and respect for your teachers.

Your teachers, your parents, and your community have more than fulfilled their obligation to give you the best in education. They ask only that you return the obligation by living a moral, successful life and by bringing honor to your community.

Good luck to each of you.

Humanities

BACK ROW: Mrs. Pettit, Wanda Brock, Carolyn Kujawski, Sue Frazier. FRONT ROW: Phyllis Frost, James A. Digby, Carole Thomas.

The Humanities are the background of our Western civilization. In this six-month program students from Wood County schools studied the influence of French and English philosophies on the present life of Americans. The course was under the supervision of faculty members of Bowling Green State University, with special television programs presented each week by WBGU. Mrs. Pettit directed the program in Grand Rapids. Along with studying the philosophies, arts, and governmental revolutions, the participants also toured the Toledo Museum of Art and attended lectures at the museum and the University. The students taking the course would like to thank Mrs. Pettit and the administration for giving them the opportunity to be included in this experimental project.

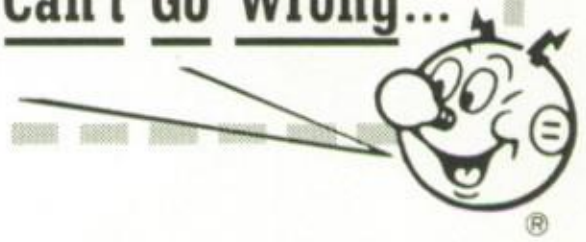
You Can't Go Wrong...



Nobody should ever consider his education complete. You can't go wrong by getting as much schooling as possible. So strongly does Toledo Edison feel about this that we finance three scholarships a year at the University of Toledo.

Lots of college graduates find Toledo Edison a good place to work. Investor-owned electric companies offer interesting careers in many fields. You might want to look into this.
